## EXPERIENCE

### NeurobotX, Montenegro— *Frontend Developer*

JUNE 2025 - PRESENT

Led frontend development on multiple web applications using React, Next and TypeScript, focusing especially on performance, scalability, and clean architecture. Collaborated remotely with backend engineers (Django/Python), contributed to technical planning, documented workflows, and onboarded new team members into the async-friendly environment.

### Kodio, Montenegro— *Frontend Developer*

SEP 2021 - JUNE 2025

Refactored and modernized a legacy frontend codebase (Vue -> React), improving maintainability and performance. Took part in planning and developing new projects, selecting appropriate tech stacks, and leading key frontend initiatives. Actively supported onboarding and knowledge sharing within the team.

### DevClub, Montenegro — *Frontend Developer*

FEB 2021 - SEP 2021

Collaborated with cross-functional developers to deliver client-facing web solutions, designing and implementing UI/UX solutions while leading UI refactors to modernize interfaces and improve overall user experience. Worked on multiple freelance-style projects with varying requirements, demonstrating flexibility and strong client-oriented problem solving.

## PROJECTS

### Fitness Website — Solo Dev Project (Live Preview)

Designed and developed a full React application for a fitness center, including a public website and an admin panel powered by Sanity.io. Built reusable components, responsive layouts, and content workflows, delivering the project end-to-end as a solo developer.
